

July 27, 2020

Dear Residents, Families, and Caregivers,

Previously we updated you on the new guidance and format released by the Centers for Medicare and Medicaid Services (CMS) regarding how we notify you about COVID-19 which began on May 8, 2020.

Personal phone messages and utilization of our facility website is our method of ongoing communication, which will provide the most current numbers of COVID-19 cases. This method of communication will provide the most current numbers. You are welcome to reach out to us with any specific questions.

We had a staff member test positive for Covid-19. They are currently in quarantine.

We continue to monitor all staff and residents. We added additional measures on the Landings unit per Department of Health's recommendations. We will be completing weekly COVID 19 testing for two weeks. We will keep you updated of any changes and of the results.

We are currently working with the Department of Health on additional follow up measures. At this point, we are considered a low-risk exposure based on the protective measures that Beacon had previously implemented. Our residents and staff members will continue to be monitored for signs/symptoms consistent with COVID-19. We also continue to practice the mitigation measures we previously shared with you.

Please know that we extend our most sincere gratitude to you and yours as we continue to provide love and attention to those in our care as we all navigate these unprecedented times. As always, please contact the facility with any questions at (724) 349-5300.

Thank you from the staff of Beacon Ridge, A Choice Community.

Sincerely,

Leah M McAndrews, NHA
Administrator
